

## PARKING REGULATIONS

These regulations govern the use of public parking facilities at the "Galileo Galilei" Airport in Pisa and the "Amerigo Vespucci" Airport in Florence Peretola.

1. The entry of a vehicle into the parking area implies full acceptance of these regulations.
2. Unless access is made via an electronic toll payment system, users are required to collect an entry ticket upon accessing the parking facility. If the ticket is not issued, users must notify the parking staff at the payment station or press the SOS button.
3. The ticket is the sole valid document for exiting the parking area. Any consequences resulting from ticket loss are the responsibility of the user. Upon exiting the parking area, based on the ticket's presentation by the holder, Toscana Aeroporti S.p.A. (TA) and Parcheggi Peretola (PAP) disclaim all liability.
4. TA and PAP provide a parking space for the user without any obligation of surveillance or custody. The use of the parking spaces does not constitute a delivery or deposit of the vehicle with TA or PAP.
5. Each parking space must be used exclusively for parking a single vehicle.
6. Users must park their vehicles within the marked spaces to avoid causing obstruction, inconvenience, or difficulty for other users. They must also comply with all internal parking signage, including spaces reserved for specific uses.
7. TA and PAP reserve the right to remove improperly parked vehicles and charge the associated costs to the user. Vehicles remaining in the parking area for more than 90 days will be considered abandoned. TA and PAP may notify the competent authorities and arrange for their removal.
8. It is strictly prohibited within the parking area to store flammable, explosive, or otherwise hazardous substances in the vehicle, except for those contained in the fixed fuel tank. It is also forbidden to transfer fuel, stop vehicles in traffic lanes, on ramps, or in arrival bays, clean vehicles, perform repairs, park vehicles with oil or fuel leaks or defects that could damage the parking area, or leave animals inside vehicles.
9. Parking fees are those displayed at the entrance and on TA's website. Discounts may apply based on TA and PAP's commercial policies. Unless prepaid or accessed via toll payment, parking fees must be paid before exiting, based on the entry ticket.
10. Requests for receipts must be made at the time of payment. If using automatic payment machines, users must press the receipt request button, as receipts cannot be issued later.
11. Each vehicle is allowed a maximum of three daily accesses, to which the standard rate applies. Starting from the fourth access on the same day, an additional fee of €40.00 will be charged, in addition to the parking fee. Requests for invoices must be made at the time of payment by completing the appropriate form available at the staffed payment station.
12. Persons with reduced mobility may park free of charge by presenting their original disability placard, along with an ID card and the disabled person's airline tickets, at the staffed payment station. To qualify, they must not use toll-payment-equipped entrances.
13. TA and PAP are not liable for direct or indirect damages caused by other users to parked vehicles or for damages, theft, or attempted thefts involving vehicles, accessories (e.g., radios, spare tires), luggage, valuables, or other objects left in vehicles.

14. Users are responsible for any direct or indirect damages caused to persons or property within the parking area, including parking facilities and structures.
15. Complaints or indemnity requests must be submitted to parking staff before exiting the facility; otherwise, all claims will be forfeited. Any damage to the vehicle, its theft, or thefts of accessories, parts, or stored items must be promptly reported to the judicial authorities, including through the appropriate police department.
16. Users accessing the parking facility via electronic toll payment must be familiar with the terms and conditions of such payment systems (available on the provider's website). TA and PAP disclaim all liability regarding these payment systems. Users who do not wish to pay via toll payment must deactivate or remove the toll device. TA and PAP will not be held liable for charges incurred due to users' failure to deactivate or remove the device.
17. Users accessing the parking facility with a reservation must not use toll-payment lanes. Otherwise, parking fees may be charged via the toll payment system.
18. At the parking facilities of Toscana Aeroporti S.p.A., a video surveillance system is in operation to ensure the security of the company's assets, prevent unlawful activities, and mitigate any form of danger to the safety of users, passengers, and civil aviation. The collected data is processed in compliance with the provisions of Regulation (EU) 2016/679 – General Data Protection Regulation (GDPR) and Privacy Code and subsequent amendments. The data controller will process the collected data exclusively for the stated purposes. The system has been authorized in accordance with current regulations.
